

Samling 88 - Scheurebe

Here's something very different made from 100% Scheurebe.

The Scheurebe grape is a cross of Riesling and Sylvaner developed by Dr. Scheu in the year 1916. As soon as the cork is pulled, rich aromas of peaches and wild flowers leap out of the bottle and fill the room. This leads to ripe peach and stone fruit flavors with excellent acidic structure and a full dry finish. A unique wine to experience, especially if you're a fan of Viognier and Sauvignon Blanc
